

Technical data

General	Gear pump
Dimension	Size: 570 x 365 x 190 mm Weight: 10,5 kg
Power supply	Battery: Li-ion 48V/6Ah Charger: 50vdc/2A Ext. power supply: 100-240VAC/50-60Hz
Maximum Output Pressure	Cont.:200bar/2900psi Peak: 250bar/3625psi
Output Volume	500 ml/min 17 oz/min
Operation	Full-automatic Semi-automatic
Controller	Hove Electronic Controller
Accuracy	+/- 1%

Datasheet HOVE CARRY

Hove Carry

Solid and stable lubrication unit with high accuracy

Hove Carry is a portable lubrication pump for port cranes. With its compact design, battery-powered pump, and digital interface, it gives you full mobility and easy tracking and documentation.

Advantages of Hove Carry pump:

- ✓ **Full mobility**
Get an ergonomic, lightweight, and battery-powered pump that is easy to use in all spaces and conditions.
- ✓ **A complete solution**
Ensure correct lubrication and complete documentation in one unified solution.
- ✓ **Real-time tracking**
Reduce paperwork and support analytical, data-driven maintenance with easy-to-pull data.
- ✓ **Reduced climate footprint**
Minimize lubricant consumption and increase bearing lifetime to reduce your climate footprint.
